13 iPad/Android Apps for 2013

1. TED - The TED App, allows you to download and view more than 1200 inspirational and fascinating talks from remarkable presenters. You can watch TEDTalks from tech geniuses, business gurus, and even education radicals.

2. Google Search - The Google Search App gives you a quick and easy way to search the web without opening any internet browser. This app even has voice search so you can search the web without typing. Just open your app and start searching!

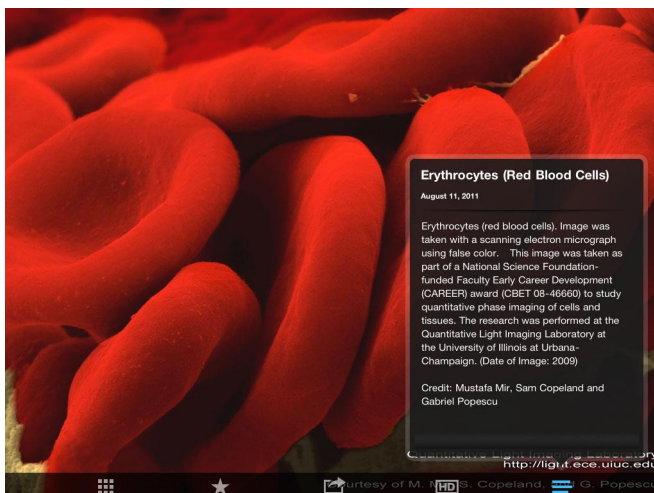

13 iPad/Android Apps for 2013

3. History Pin - The History Pin App gives you a look into the past. With this App, you can explore the world through pictures. Photos are pinned to their location so you can see how certain places looked during different eras in history.

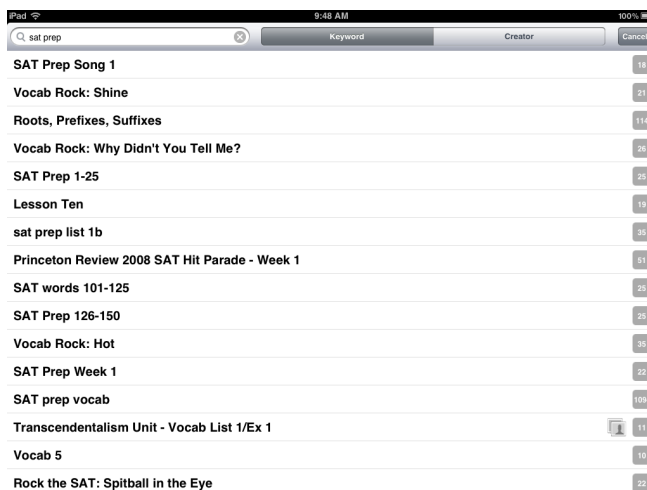

4. Science360 - Science360 gives student a very visual look into the world of Science. With hundreds of images and videos from the National Science Foundation, this app will teach students about various scientific topics.

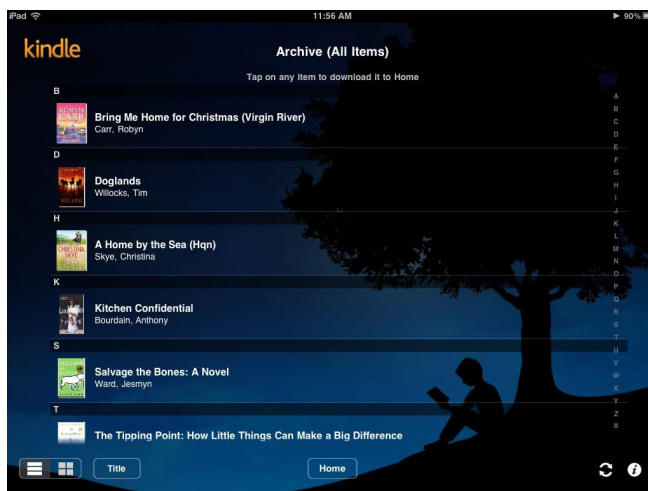

13 iPad/Android Apps for 2013

5. Flashcardlet - The Flashcardlet App is an easy-to-use study tool for any topic. This App allows students to create and share their flashcards for collaborative study. Flashcardlet is a great study tool and even works just like a real stack of flashcards.

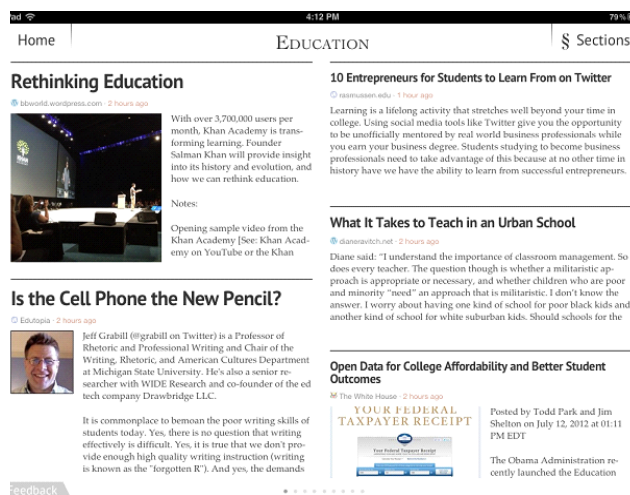

6. Kindle - With the Kindle App you can easily access and read Kindle books, newspapers, magazines, textbooks, and PDFs. The Kindle app has thousands of free eBooks and a built-in dictionary. You can easily sync your Kindle books onto all of your devices.

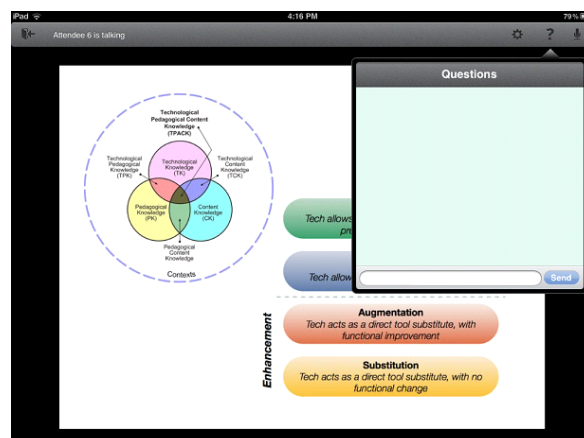

13 iPad/Android Apps for 2013

7. Zite - Zite was selected by Apple as the #1 News App of 2011. With Zite, you can customize your own personalized magazine. This App will match news stories to your interests and deliver them straight to your device.

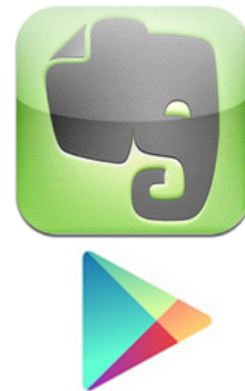

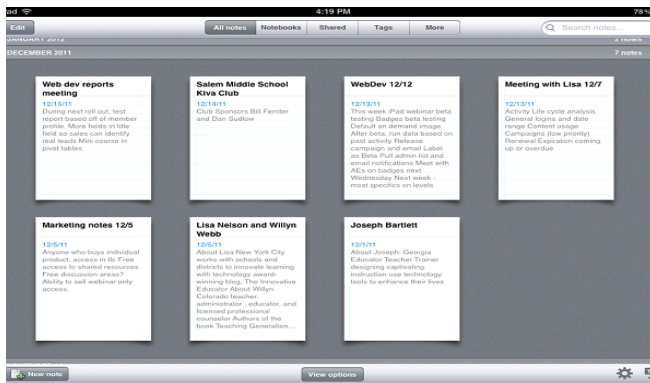

8. GoToMeeting - GoToMeeting is a web conferencing App that allows you to host or join meetings and collaborate instantly from your device. This App is great for anyone who is always on the go. With the GoToMeeting App, you can even join in on our live SimpleK12 webinars!

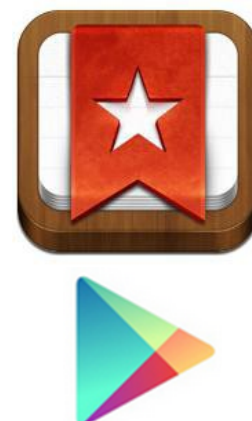

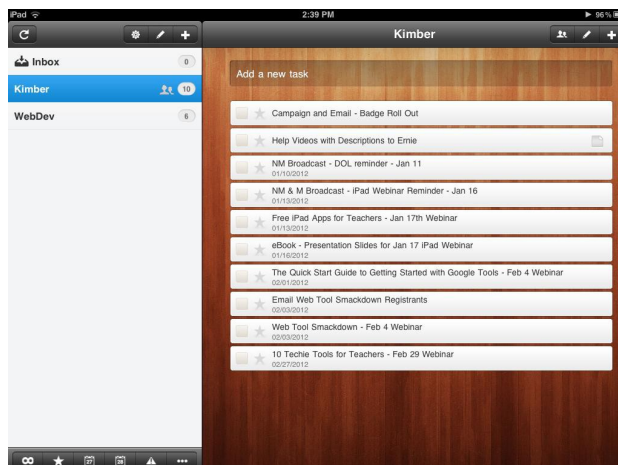

13 iPad/Android Apps for 2013

9. Evernote - Evernote is your personal memory assistant! Evernote allows you to get organized and keep track of everything from your favorite websites to your to-do lists. You can collaborate with friends and colleagues and access Evernote from your iPad, iPhone, desktop, or other device. With image and handwriting recognition there is so much you can do with Evernote!

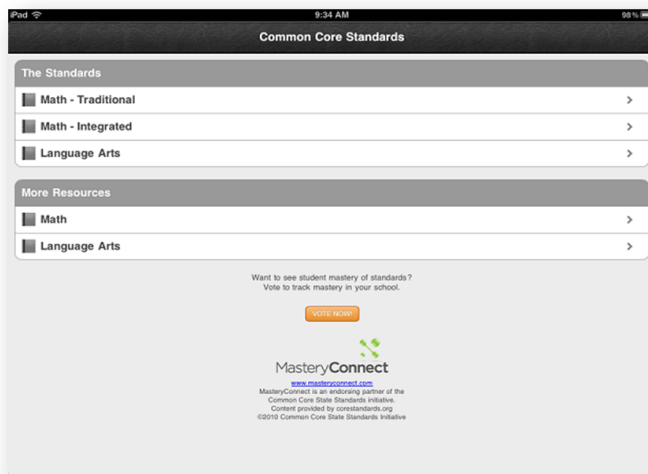

10. Wunderlist - The Wunderlist App is a great way to get organized. You can add your to-do lists and task lists to this app and synchronize them with all of your devices.

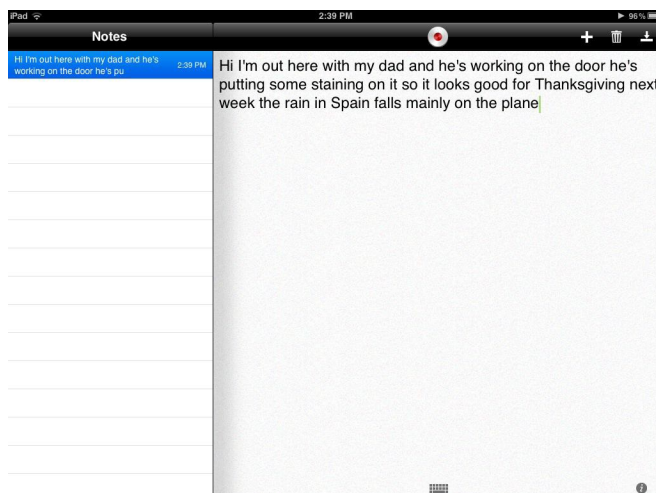

13 iPad/Android Apps for 2013

11. Common Core Standards - The Common Core Standards App allows you to search standards by subject, grade, or category. This app is a great way to read and understand the core standards and includes Math and Language Arts standards K-12.

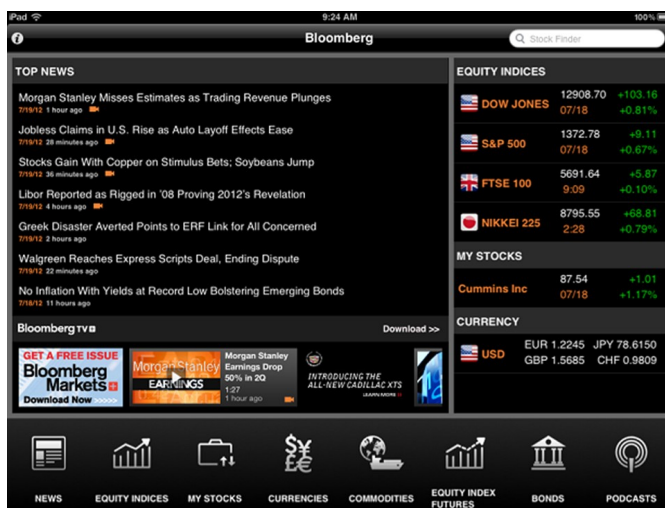

12. Dragon Dictation - Dragon Dictation is an easy-to-use voice recognition app that allows you to speak and record notes and reminders for yourself, or to speak text messages or email messages without typing.

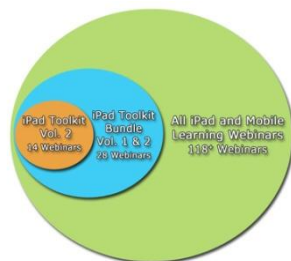

13 iPad/Android Apps for 2013

13. Bloomberg - With the Bloomberg App you can keep track of stocks and use it to teach students about currencies, the economy, and math.
